Patient Portal

We are happy to announce our brand new service to our patients. Through our electronic medical records we are offering a **Secure Patient Portal**.

You can access your medical records using a User Id and Password. You will have access to

- 1) Lab results
- 2) Request referrals
- 3) Request medication refills
- 4) Request **Non-Urgent** appointments through the secure website.

Please sign up with our office today. All we need is a private e-mail address to create your portal access. (Please avoid using your work e-mail if possible)

Your e-mail address is only used for our internal use to communicate with you directly. We will not share your e-mail with any other agencies.

Thank You
